

# Weekly Operating Summary

Week 24 - bound to metrics.csv

## Highlights

Revenue grew +18% week-on-week to \$48.6k MRR, on 427 new signups. Churn eased to 2.4%.

## Key metrics

| Metric            | Previous | Current | Change |
|-------------------|----------|---------|--------|
| MRR               | \$41.2k  | \$48.6k | +18%   |
| New signups       | 312      | 427     | +37%   |
| Churn             | 3.1%     | 2.4%    | -0.7pt |
| Active workspaces | 188      | 205     | +9%    |

## Commentary

Growth remained steady this week, continuing the gradual climb seen since early Q2.

Weekly trend chart

## Wins this week

- Onboarding flow shipped to all workspaces
- Support backlog cleared to zero
- Two enterprise trials converted

## Next steps

1. Monitor activation on the new flow
2. Prepare the mid-quarter board update
3. Close the next hiring cohort

## What to watch

Activation rate on the new onboarding flow, and whether the signup spike sustains into next week.
